

Satellite Broadband by MEASAT

CONNECTme NOW
delivers up to
30Mbps high speed
broadband access at
any remote location
in Malaysia.

Malaysia's First Prepaid Satellite Broadband Service

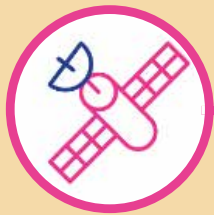

CONNECTme NOW is a high speed WiFi Hotspot service leveraging on MEASAT's innovative satellite broadband system. It is best suited for public use in underserved or unserved areas in Malaysia. CONNECTme NOW users can access the Internet by purchasing Prepaid Access Codes (PAC) from Authorized Agents nationwide.

The PAC is priced cost-effectively in small packages to meet user needs and affordability without long contracts or high upfront fees.

100% Coverage, Broadband For All

How it works?

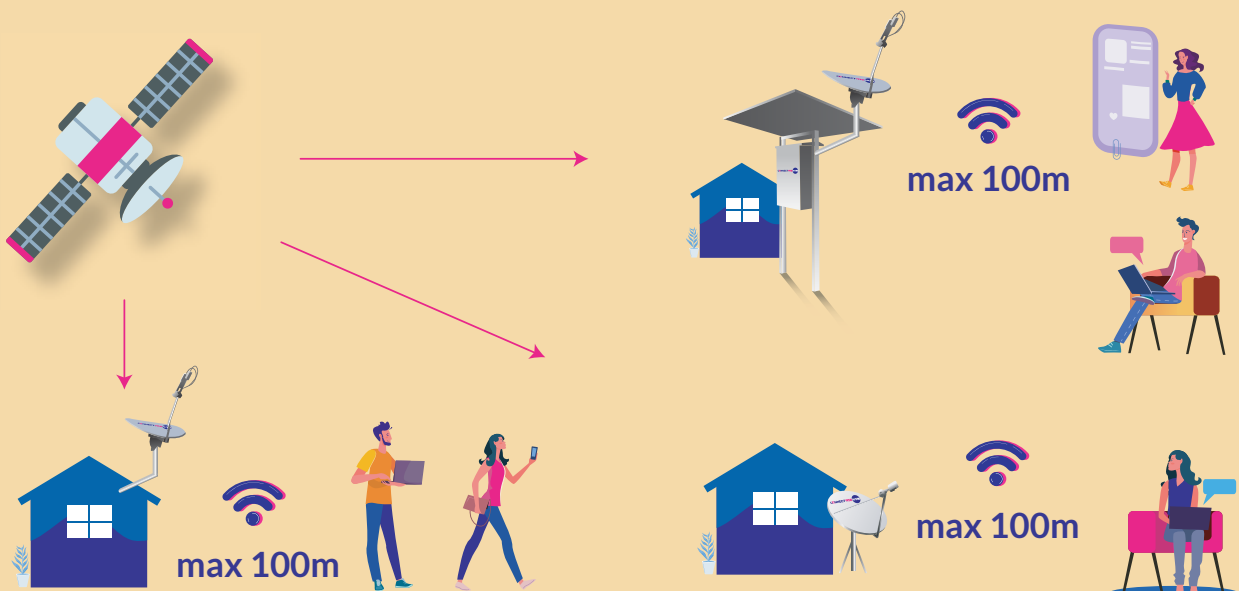

100% Coverage with speeds up to 30Mbps, satellite-based with easy setup

About MEASAT Global Berhad (“MEASAT”) Quality Satellite Services From the Centre of Asia

MEASAT is a premium supplier of communications and video services to leading broadcasters, Direct-To-Home (DTH) platforms and telecom operators. With capacity across five communication satellites, MEASAT provides services to over 150 countries, representing 80% of the world's population across Asia, Middle East, Africa, Europe and Australia.

In 2018, MEASAT launched CONNECTme, a satellite broadband service with its primary vision of 100% broadband coverage across Malaysia. CONNECTme aims to fill the broadband gap at areas unserved by either 4G or Fiber Internet.
