REMARKS

¹"Managed Services" means (a) the monitoring of the router at each Service Installation Address in respect of the broadband internet services; (b) providing access to a network system to monitor the router; and (c) providing monthly reports on the performance of the broadband internet services which shall include data utilization and network downtime.

²"QoS & Content Filtering" means controlling access to certain websites, and applications, by filtering content and adjusting priorities. Adjustments to the filters and priorities can be made without any additional charge once every six months of continuous service.

³"VPN Tunnel Service" means encrypting data from the Customer's VPN gateway to PSSB's provisioned facility.
